

2024 PRODUCT CATALOG

Your land. Your legacy.®

What started in Appleton, Wisconsin as a father and son's passion for Whitetail hunting is now one of the leading names in land management. After the first portable tree saw came to market in 2008, Hooyman® continued to innovate with ground-breaking land management tools upholding the same values the brand was founded on; quality, innovation, and service.

Regardless of acreage, Hooyman® is tying together land managers across the country through mutual respect and admiration for the land and the animals that thrive off it. We are a brand made for the conservationist by the conservationist — preserving the experience for future generations.

Hooyman® is no longer just a name; it's a lifestyle.

/HOO-ee man/

Land management is a **year-round cycle** driven with a burning desire to leave the land better than you found it. Hooyman® provides ground-breaking tools to fuel that desire.

CONSERVE

the quality of the land

CREATE

a habitat for wildlife to thrive

PRESERVE

for future generations

Introducing the **NEW H-GRIP™**

The Hooyman® H-Grip™ is designed to work with you, not against you, making your grip stronger and allowing you to work harder. Hooyman's secret recipe is the material in the H-grip, which makes the grip tackier when wet, either from sweat or water. This allows you to focus more on the task at hand and not on gripping your tool. At Hooyman, we believe in our tools. Built with the best materials and the most durable design features, we engineered these tools to exceed the high expectations Hooyman has for its products. These are not standard tools; these tools are designed to be the best and are backed by a Lifetime Warranty. Go ahead, give them a try. You won't be disappointed.

The background of the image is a close-up of a rough, grey stone wall. Three black pipes are running vertically across the frame. Each pipe has the 'Hooymann' logo printed on it in white. The logo consists of a stylized 'H' made of three squares followed by the word 'Hooymann' in a sans-serif font. The middle pipe is in sharp focus, while the pipes on either side are slightly blurred.

12" HOPPER OPENING
for easy fill

MEDIA LEVEL
indicator

HITCH MOUNT
included

MULTI-SEASON
spreader

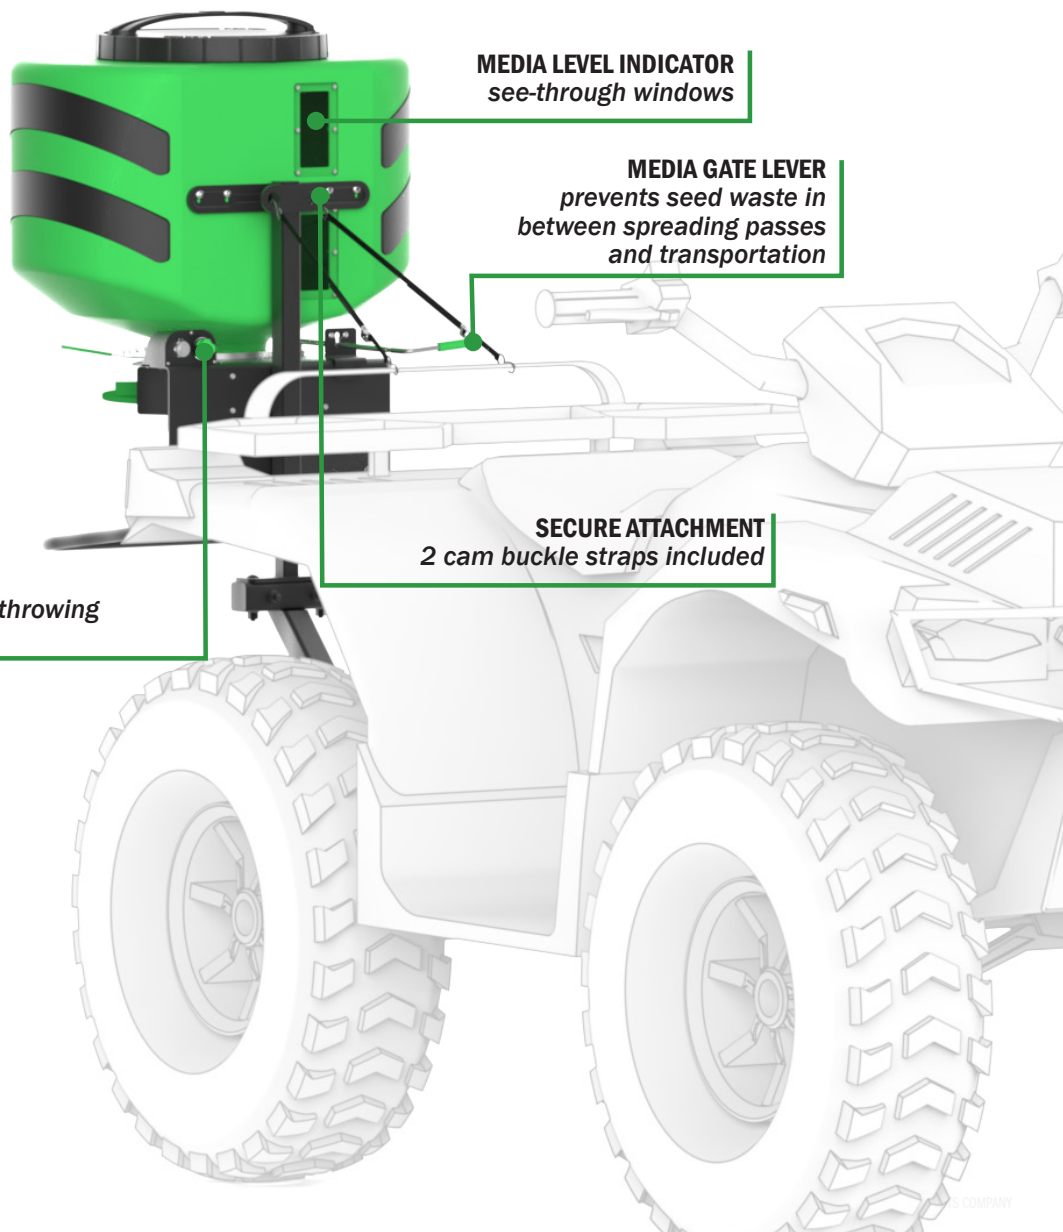

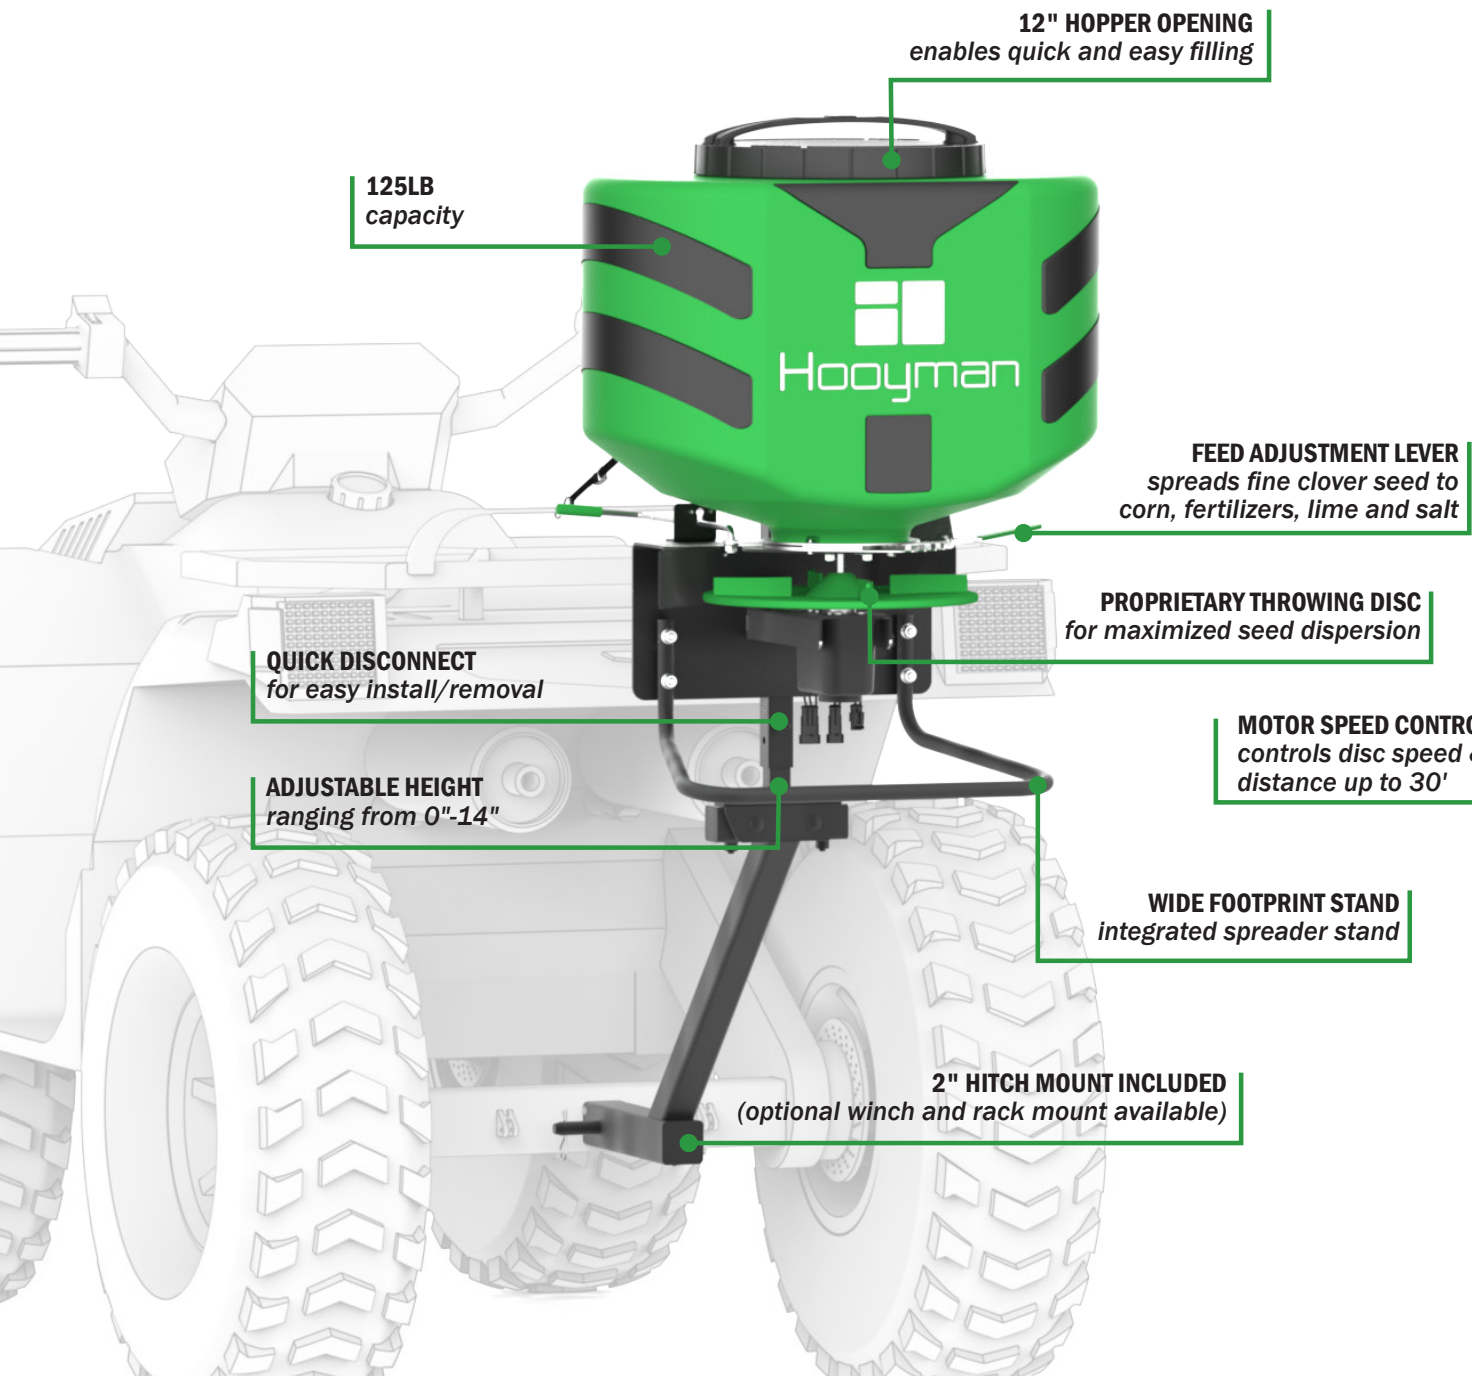

ADJUSTABLE
feed rate

PROPRIETARY
throwing disc

The Hooyman® 125LB Vehicle Spreader features innovation, durability, and effort-free spreading all in one. The feed rate adjustment lever allows the user to throw various seed sizes ranging from fine clover to larger seed, fertilizer, and salt granules. The media gate lever allows the operator to start and stop the media flow with a simple pull or push. The speed control knob adjusts the speed of the proprietary curved fin throwing disc, giving unmatched throwing distance and even media coverage. The Vehicle Spreader includes a 2" hitch mount, but its optional rack and winch mounts make this unit completely universal. The Hooyman® Vehicle Spreader also comes with a 12V accessory plug, ring terminal connection, and an alligator clip power cord.

- 125LB capacity hopper minimizes time spent refilling with media
- Proprietary curved fin throwing disc maximizes throwing distance and provides even coverage
- Feed adjustment lever allows user to throw various media sizes ranging from clover to larger seed and even salt granules
- Adjustable motor speed gives the user complete control over speed and distance media is thrown
- 2" hitch mount included
- 12V accessory plug, ring terminal connection and an alligator clip power cord included
- Optional rack and winch mount accessories for multiple spreader mounting solutions

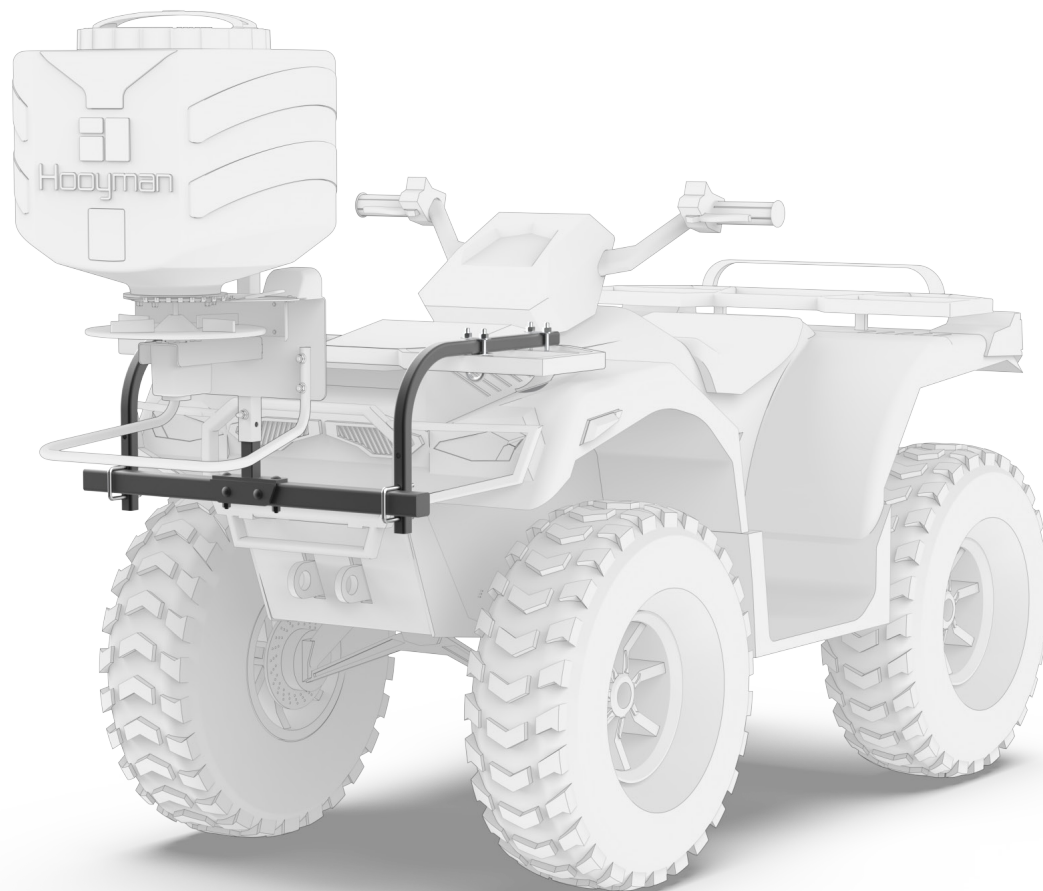

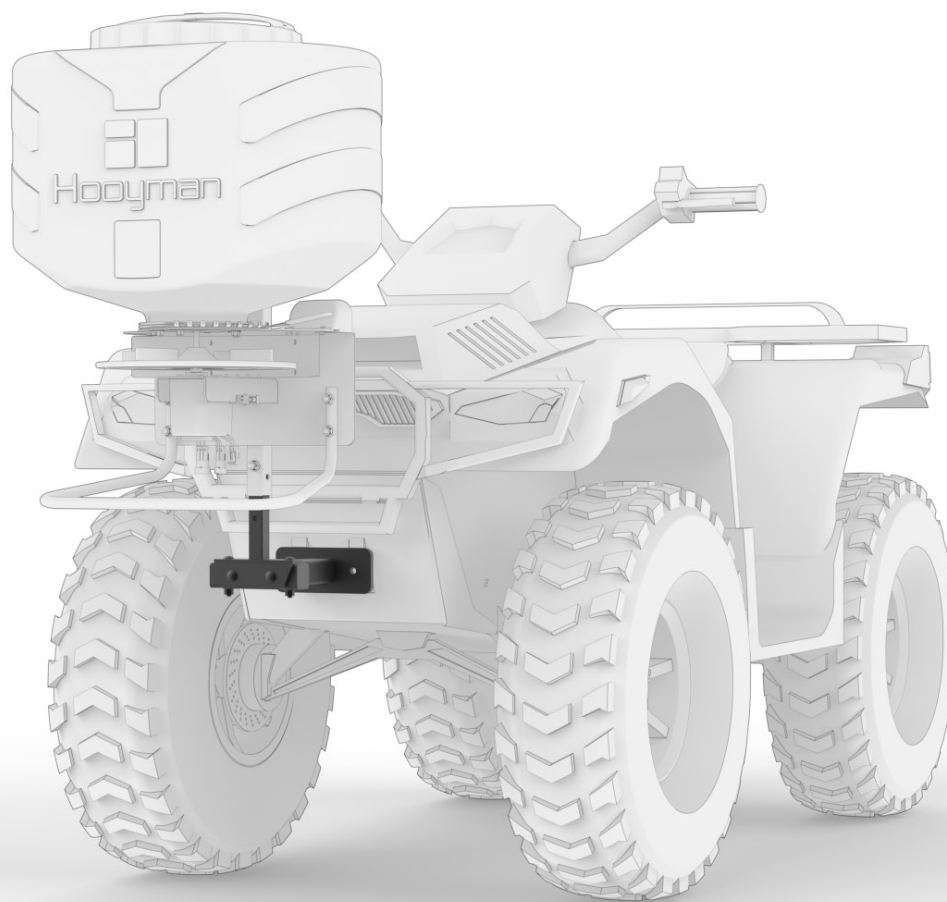

ATV Spreader Rack Mount

ID: 1200832 UPC: 661120750789

The Hooyman® 125LB Vehicle Spreader Rack Mount brings versatility and durability to mounting your spreader. The high-strength steel adjustable arm bars securely mount the spreader on the front or rear rack of their ATV. The included leveling shims allow you to fit the spreader to your ATV which creates an even spread while maximizing throwing distance.

- High-strength steel construction for durability when spreading or planting in rough conditions
- Universal design allows it to be mounted on steel tubular racks
- Included leveling shims allow for an even spread and maximize throwing distance

Vehicle Spreader Winch Mount

ID: 1200655 UPC: 661120750796

The Hooyman® 125LB Vehicle Spreader Winch Mount brings versatility to mounting your spreader. The high-strength steel mounting plate securely mounts the spreader on the winch of your ATV / UTV or vehicle.

- High-strength steel construction for durability when spreading or planting in rough conditions
- Universal design allows it to be mounted on all types of ATV / UTV and vehicle winches

24VOLT
LITHIUM ION

3 HOURS
continuous runtime

COMFORTABLE
harness system

MULTI-SEASON
spreader

ADJUSTABLE
feed rate

PROPRIETARY
throwing disc

EASY FILL
construction

The 24V Lithium-Ion Chest Spreader makes spreading faster, easier, and more comfortable. An adjustable motor speed knob allows you to change the distance media is thrown on the fly. Our proprietary curved fin throwing disc throws up to 40% farther than competitors and provides a more even spread. With a continuous run time of 3 hours, you'll be able to get most jobs done on one charge. The innovative harness system disperses the weight of the spreader throughout the torso eliminating pain points from a single strap.

- Proprietary throwing disc throws farther and provides a more even spread
- Adjustable feed rate controls flow of media ranging from clover to large media
- Easy fill construction minimizes spillage of media
- Comfort harness system disperses the weight of the spreader making it more comfortable for the user
- Multi-seasonal design allows the user to spread salt, fertilizer, seed, and more
- Adjustable motor speed allows the user to control distance media is thrown
- 3 hour continuous runtime maximizes time spent spreading with less battery charging
- 7" Media level indicator allows the user to continuously monitor the amount of media in the 35lb hopper
- T-Slot Mounting System easily attaches spreader to harness
- Large Handle Lid for easy hopper filling

EASY FILL
construction

The Hooyman® manual spreader is perfect for year-round land management. The adjustable feed rate allows for throwing anything from clover, corn, fertilizer, or even salt granules. The adjustable harness system provides extra comfort by dispersing the weight throughout the torso rather than single-point shoulder straps on competitor chest spreaders. Our proprietary throwing disc throws up to 40% farther than competitors and provides more even media coverage.

- Proprietary throwing disc throws farther and provides a more even spread
- Adjustable feed rate controls flow of media ranging from clover to large media
- Easy fill hopper minimizes spillage of media
- Comfort harness system disperses the weight of the spreader making it more comfortable for the user
- Multi-seasonal design allows the user to spread salt, fertilizer, seed, and more
- No-Slip H-Grip™ will get tackier when wet to minimize slippage
- 7" Media level indicator allows the user to continuously monitor the amount of media in the 35LB hopper
- Large Handle Lid for easy hopper filling
- T-Slot Mounting System easily attaches spreader to harness

4 EXTENSION SECTIONS
extend, collapse
& lock independently

Unleash your potential with our innovative 5 and 10-foot Extendable Saws, meticulously crafted to revolutionize your cutting experience. Designed for those who demand precision and reliability, Hooyman® extendable saws seamlessly combine cutting-edge features to redefine what an extendable saw can achieve. Our rugged telescopic aluminum handles extend to 5 and 10 feet allowing the user to cut hard-to-reach branches with a saw that can easily fit in your pack. The removable saw head features a SK5 steel blade with Megabite™ teeth design and doubles as a hand saw when trimming up close and personal limbs. The No-Slip H-Grip™ handle gives the user complete control even when wielded by sweaty hands.

- Telescopic handle for compact storage and ability to reach the furthest limbs
- No-Slip H-Grip™ will get tackier when wet to minimize slippage
- Detachable saw head doubles as hand saw
- SK5 steel blade for extreme durability
- Megabite™ teeth design for effortless cutting
- Aluminum handle construction for lightweight durability

ID: 1112239 UPC: 661120079613

NO-SLIP H-GRIP™
handle

REINFORCED NECK
design

HIGH CARBON STEEL
head

Get to work on a tree or two with the chopping axe featuring high carbon steel and a signature green ergonomic, No-Slip H-Grip™ handle. The steel blade features a V-Grind, making a stronger, thicker blade edge that will stay sharper longer and withstand repeated impact over time. The narrower cheek angle and sharper blade on the chopping axe is made to effortlessly cut wood against the grain.

Splitting Maul

ID: 1112248 UPC: 661120079620

NO-SLIP H-GRIP™
handle

FIBERGLASS CORE
handle

HIGH STRENGTH STEEL
head

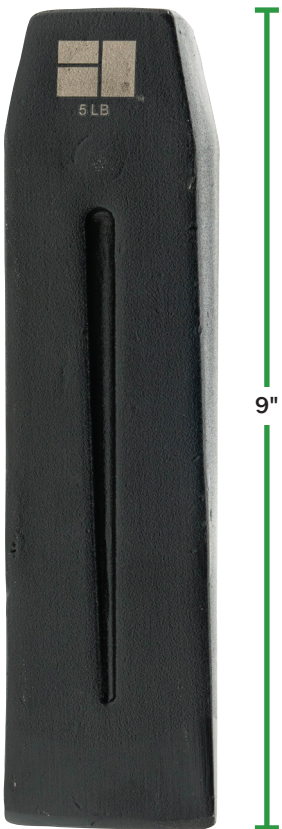

The steel blade features a convex grind with more surface area, enabling the blade to stay strong and sharp with repeated, high-impact use. The ergonomic, signature green No-Slip H-Grip™ handle contains a durable, reinforced fiberglass core.

Splitting Wedge

ID: 1112261 UPC: 661120079699

Split the toughest trees and stumps with the splitting wedge. Constructed of high carbon steel and just over 2 inches wide, the splitting wedge is a necessity for your splitting arsenal.
