

2024 CATALOG

Built for Generations.™

Founded in 1958, Old Timer® created a knife built with durability in mind but also a tool that was comfortable enough to work with day after day. For over 65 years now, Old Timer® has created knives for the working class. Knives built for those who don't rely on others to get the job done. We didn't just stop there; as the years went on we have created knives for the outdoorsman.

Old Timer® is more than just a knife – it's a timeless tool meant to be passed down. When you craft a knife designed to last generations it becomes more than just a tool. It becomes memories made, lessons learned, and values taught.

Passing on a knife is more than a gift.

A person in camouflage gear is walking away from a dilapidated, long building with a corrugated metal roof. The building has a stone or concrete base and is surrounded by dry grass and some bare trees. The person is walking on a dirt path. In the background, there are more trees and a hazy sky. A topographic map overlay is visible in the upper half of the image, showing contour lines and a red line. The text "NEW PRODUCTS" is centered in the middle of the image, underlined.

Experience the peak of versatility and convenience with the Old Timer® Switch-It® Kit – a game-changing innovation designed to revolutionize your cutting experience. Unleash your inner craftsman with the Old Timer® Switch-It® Kit's four high-quality stainless interchangeable blades. Included blades are a 6" bone saw, 5.25" boning blade, 4" Sharpfinger® blade & 3.75" gut hook blade. Crafted for ergonomic excellence, the non-slip handle guarantees a secure grip that enhances your cutting control and reduces hand fatigue. This means you can focus on skinning and quartering your trophy without any compromises in comfort. Included is a dishwasher-safe case with a built-in knife sharpener so you can always stay sharp in the field. Whichever blade processing your trophy calls for, Just Switch-It®.

- Dishwasher-safe case for easy cleaning and all-in-one storage solution
- Knife Sharpener included for peace of mind
- Full game processing assortment to limit the amount of knives taken into the field
- Easy blade release for quick changing of blades
- Rubberized non-slip grip to keep a great grip in the messiest of situations
- Corrosion-resistant and easy-to-sharpen steel, most applicable for hunting knives

THE FRONTIER SERIES™

Experience the perfect fusion of classic aesthetics & contemporary innovation in every knife from the Frontier Series™. Our mission? To bring you the charm of a traditional-looking knife, enriched with modern components, all while keeping it affordable. Each blade is a testament to the harmonious blend of the past and the present, ensuring you hold a piece of heritage in your hands without compromising on performance.

The Old Timer® LITHIUM ION ELECTRIC FILLET KNIFE was truly designed with the consumer in mind. Much like most of you, we were tired of other knives not having enough cutting power, battery life or breaking due to poor construction and materials. Our Electric Fillet Knives are designed and built to take out all the frustrations every fisherman has dealt with for far too long. Our "Built for Generations™" mission didn't stop at folding and fixed blades; it stretches across all knife categories. With hours of designing, rigorous testing, improving flaws and imperfections; we've crafted a 7.2V Lithium Ion battery and a 16,000 RPM motor with nearly an hour and a half of continuous loaded runtime that any fisherman can afford.

The Old Timer® 110V ELECTRIC FILLET KNIFE comes with an 8 foot cord for better accessibility whether you are filleting at the dock or by the shed. Much like most of you, we were tired of other knives not having enough cutting power or breaking due to poor construction and materials. Our Electric Fillet Knives are designed and built to take out all the frustrations every fisherman has dealt with for far too long. Our "Built for Generations™" mission didn't stop at folding and fixed blades; it stretches across all knife categories. The electric fillet knife comes with a carrying case for easy on-the-go storage and a new 8 inch stainless steel optimal blade. This blade allows for easier cutting so you can spend more time fishing and less time filleting.
